

Press Release

Exchange State Bank of Lanark to launch new logo, website and mobile app

Exchange State Bank has been a fixture in the community for over 140 years, and as part of the Bank's continued evolution has developed a new logo, website and mobile app with mobile check deposit that will launch the week of April 1st.

"We have worked hard over the last several months on refreshing the look and feel of our bank with the new logo, website, and mobile app while also improving the technology and services available to our customers. In today's modern world, our customers demand 24/7 access to their accounts on a variety of platforms, and we are proud to improve our offerings in this area. In addition, the ability for customers to deposit checks with their phone is another sign of our commitment to continue to offer the latest products and services available now and in the future. Our excellent customer service has always been, and will remain, a priority, and we are excited to pair it with these improved offerings. We hope everyone enjoys our new look as much as we do," said Matt Zumdahl, President.

About Exchange State Bank: Exchange State Bank is an independent, locally-owned community bank in continuous operation since 1878. Located in Lanark, IL, it proudly serves the Lanark community as well as farms, businesses and customers throughout Carroll County and Northwest Illinois. Exchange State Bank was built on a strong foundation of agriculture which carries through to today, while also offering a diverse set of modern products and services from personal & business banking, mortgage & consumer lending, and wealth management services to convenient, modern solutions such as online and mobile banking.
